Ruben Oliveira da Costa

Junior Full Stack Developer

React · Next.js · TypeScript · Node.js · PostgreSQL

PROFILE

Junior full-stack developer currently pursuing a Higher Professional Technical Course (CTeSP) in Information Systems Technologies and Programming at the Polytechnic Institute of Castelo Branco. I build end-to-end web applications, with interfaces in React and Next.js (TypeScript) and APIs in Node.js/Express backed by PostgreSQL. Experienced with deployments on Vercel and Render, pull requests, and CI/CD with GitHub Actions. Previous training in Business IT, combining software development with economics and business management.

PROJECTS

Manager — User Management Platform

React · TypeScript · Node.js/Express · PostgreSQL demo ↗ · front-end ↗ · back-end ↗

- REST API built with Express.js and TypeScript, featuring JWT authentication, middleware-protected routes, and passwords hashed with bcrypt.
- PostgreSQL database with 7 related tables, 2 views, and 16 PL/pgSQL functions (account creation and editing, login, deactivation and reactivation, and KPIs).
- React + Vite front end with login, dashboard, and profile pages; React Hook Form forms, notifications, virtualized lists (TanStack Virtual), and a bilingual PT/EN interface (i18next), deployed on Vercel.

PathPals — School Transportation Web App

Score: 19/20

Professional Aptitude Project (PAP) · ETPS

- Application designed to organise safe, free transport between home and school, managed directly by the educational institution using the system.
